1. ☒ I am most concerned that the proposed volume of trains / freight traffic would severely impact accessibility of emergency vehicles to residents' homes or to a medical facility. All emergency department (be it medical, fire, police, etc) would be affected.
2. Increased train traffic would impede traffic to & from many area schools - especially the high school. It could present a dangerous situation for students.
3. Automobile traffic through Barrington would have increased ~~emissions~~ emissions due to longer wait times as trains bring traffic to a slowdown / stop.

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
